

## EARTH IS INFINITESIMAL

## NEW THEORY ADVANCED BY FRENCH ASTRONOMER

ASTONISHING DISCOVERY IS SAID TO BE SUPPORTED BY RESEARCHES OF EXPERTS.

BY PROF. CHARLES A. DREYER.  
PARIS, Dec. 15.—Each atom of each molecule composing a drop of water constitutes in itself a complete solar system similar to the one in which our own planet earth follows a solar orbit.

This is the marvelous fact recently proved by the researches of two English scientists—Thomson and Rutherford—and borne out by the experiments and calculations of the Danish physicist, Niels Bohr.

We may insects who pompously call ourselves the race of man and have become accustomed to regard our universe as the infinite ultimate and ourselves as the supreme expression of being, may stand humbled in face of the startling discovery of these three men.

Part of a Mighty Drop.  
It is more than a drop of water, for it is a drop of the universe, a drop of the infinite, a drop of the eternal.

Why not when we consider that in every drop of water, in every molecule of matter, in every atom of the universe, there is a complete solar system, a complete universe, a complete world?

Such a thought, as we do know about the drop of water, still so small, that it is almost invisible, and yet it contains in itself a complete universe, a complete world, a complete solar system.

Such a thought, as we do know about the drop of water, still so small, that it is almost invisible, and yet it contains in itself a complete universe, a complete world, a complete solar system.

Such a thought, as we do know about the drop of water, still so small, that it is almost invisible, and yet it contains in itself a complete universe, a complete world, a complete solar system.

## TIDE OF REFUGEES FROM RUSSIA IS STILL RISING

Many Poles, Passing Down "Road of Sorrow" on Way to Homes Wrecked in War.

KOBYLN, RUSSIAN POLAND, Dec. 14.—The tide of homeward-bound Poles passing down the "Road of Sorrow" from Russia, is still rising. Figures gathered by the American Red Cross outposts along the frontier show that the daily number of refugees has doubled during the past month. Every effort is being made to move the greatest possible number of those unfortunate homeward before winter sets in. But there are more than a million still to come from the nearby provinces of Russia.

The type of station maintained along the frontier by the American Red Cross is a "refugee barracks" kitchen—usually established in old military buildings. Here facilities are provided to enable the passing flood of refugees to cook themselves a good meal, to take a bath, to spend a night or two at rest, and to submit themselves to the examination of a Red Cross doctor or nurse who can administer first aid.

About half of the refugees who drift through Kobryn remain temporarily here. A few belong in this district and go back to what remains of their ruined homes. Some are returning to the land to spend the winter in dugouts or huts of primitive character. Sound buildings are in short supply and the refugees are in addition milk and hard bread.

The meals served at the Red Cross stations consist of hot soup made of flour, and meat, and hard bread, and in addition milk and hard bread.

STATE OWNERSHIP OF ALL ARDENT SPIRITS PLANNED

Campaign for Nationalization of Manufacture and Sale of Liquor Launched in England.

CARLISLE, ENGL., Dec. 14.—A campaign for the nationalization of the manufacture and sale of intoxicating liquor was inaugurated today in England by the National Union of Public Workers.

The National Union of Public Workers, a body of 100,000 members, has launched a campaign for the nationalization of the manufacture and sale of intoxicating liquor.

## REPATRIATING EXILES

THIS MEASURE URGED AS PRIMARY JUSTICE

Grecian Prime Minister Tells of Future of Thrace Which Bulgaria Is Asked to Return.

BY ELEUTHERIOS VENIZELOS.  
LONDON, Dec. 17.—It has been doubted by some whether the Greek element in Thrace possesses a clear ethical preponderance. Before looking into this question it is essential to fix the date to be used as the basis for the examination of such a preponderance.

Shortly after the treaty of Athens, by virtue of which the British state intervened in Greece and Turkey was ended, it is to be said, from early months of 1913, the Turkish government inaugurated a systematic and violent persecution against the Greek element in Thrace and Western Asia Minor. Those who took refuge in Greece, fleeing from this persecution, numbered about 400,000 people, who for the last five years have lived in exile and who today most importantly await the signing of peace with Turkey, so that they may be repatriated in their possessions.

Moreover, a great number of the remaining Greeks, especially those inhabiting the district of Propontis and the district of the Hellespont, have been deported during the last year to the interior of Asia Minor. The number of these deportees is estimated by the Inter-Allied Mission at Constantinople at 100,000 and approximately half have perished.

Whatever be the decision as to the future political status of Thrace, the conference's primary duty should be to secure the return of the Greek element to their possessions. Such a return, according to the Inter-Allied Mission, would be a primary justice, and according to the Greek population of Turkey, it would be a progressive and prosperous factor in the life of the country.

As regards the Bulgarian element, the conference should be aware that the Bulgarian element in Thrace has not yet been repatriated. The Bulgarian element in Thrace has not yet been repatriated.

## DOCTORS USE

DOCTORS USE CALOTABS FOR COLDS AND FLU

Influenza and Grippe, Like Ordinary Colds, Require Calotabs, the Purified and Refined Calomet Tablets That Are Nauseous, Safe and Sure.

Physicians and druggists claim that the great epidemic of influenza has conclusively demonstrated that the quickest relief for a cold and the best preventive of influenza and pneumonia is to keep the liver active so that the digestive organs may be in perfect condition.

Calotabs have the special advantage of not making the patient sick and weak, as they do not upset the digestion and appetite. One Calotab, taken with a swallow of water, three or four times a day, will keep the liver active, the stomach healthy, and the system in perfect condition.

Calotabs are sold only in original sealed packages, price thirty-five cents. Sold by all druggists and your money back if you are not delighted with them.—Adv.
